

THE BRITISH SCHOOL OF OSTEOPATHY

14.05.2008.

To Whom It May Concern:

RE: Square Metre (Sq-M2)

Square Metre was appointed following a competitive tendering process to fit out our new site at Southwark Bridge Road SE1. This was to provide an osteopathic clinic to support the school's work.

The site was a new build shell of approx 11,500sq ft and the fit out involved the creation of 35 treatment rooms, teaching spaces and support office space. The fit out budget was set at £2,200,000 inclusive of vat.

The project in my mind has been a complete success in no small part to the very positive working relationship created by everyone at Square Metre. The site team were particularly helpful and professional in all their dealings with me. The team carried out the work with minimal disruption to our neighbours and I did not receive a single complaint about the behaviour of the contractors.

The project was completed on time and with only a 2% overspend; this was due to changes we instigated. The clinic has now been in occupation since April 2008 and is proving a huge success with many people complementing the quality of fit out.

I would whole heartedly recommend Square Metre to you and we have been so pleased with their work we have invited the team to the official opening of the clinic by our Patron Her Royal Highness The Princess Royal.

Yours sincerely

Charles Hunt Principal and Chief Executive
